## SUBJECT INDEX

### A

- Adaptive chin, 948 (Abst.)
- Age and malocclusion, survey of 143 periodontal cases in terms of, 234 (Abst.)
  - changes; gonial angle, 126
- Agenesis of third molar in man, 698
- American Association for Cleft Palate Rehabilitation, 322, 726
  - of Orthodontists, 239, 405
    - annual meeting, 1955, 644, 721, 803, 883, 950
    - Central Section of, 724, 885
    - fiftieth annual session, 71, 239, 318, 536, 558
    - Golden Anniversary Luncheon, 536, 722
    - installation of new A.A.O. officers, 722
    - International Luncheon, 544
    - Past Presidents' Luncheon, 546
    - principles for determining acceptability for participation in public health and prepayment orthodontic plans by members of, 723
    - 1955 prize essay contest, 643, 802, 883, 950
    - report of Education Committee of, 1954, 944
    - report of president of American Board of Orthodontics to directors of, 793
      - of Public Relations Committee, 1954, 941
      - of Research Committee, 940
    - research essay contest of, 1954, 880
    - section meeting of, 159, 644, 802, 884, 951
  - Board of Orthodontics, 71, 160, 189, 240, 562, 645, 726, 806, 884, 951
    - A.B.O. theses available for reading on constituent society programs, 804
    - certification by, 189
    - report of president of, to directors of American Association of Orthodontists, 793
  - Dental Association, 77, 889
    - principles for determining acceptability of dental prepayment plans, 723
  - Institute of Dental Medicine, 485, 564, 726
  - Anchorage, tissue-bearing, use of, alone and in conjunction with various techniques in treatment, 407

- Androgen treatment, developmental disturbances and malocclusion of teeth produced by, in monkey (*Macaca mulatta*), 37
- Anodontia, complete, with ectodermal dysplasia, fourteen-year report of facial growth in case of, 237 (Abst.)
- Apparatus and technique for temporomandibular radiography, 69 (Abst.)
- Appliance, open-tube, treatment of typical distocclusion case employing, 163
- Appliances, removable, treatment of Class II malocclusion in mixed dentition with use of, 359
- Arch dimensions, coronal and basal, in horizontal plane, polygon portrayal of, 811
  - wires, forming; use of chrome alloy in edgewise technique, 458
- Arches, dental, widths of, at permanent first molars in children 9 years of age, 134
- Association of Military Surgeons of United States, 809

### B

- Baker, Dr. Charles R., receives orthodontics' highest award, 646
- Bands, preformed; use of chrome alloy in edgewise technique, 457
- Bite plane therapy, maxillary, in orthodontics, effects of, 850
  - plates, orthodontic, changes in mandibular condyles in mice following use of, 775
- Body build, human, variations in; somatometric and x-ray cephalometric investigation on Scandinavian adults, 799 (Abst.)
- Bolton point, mathematical grid coordinate method of locating, 232 (Abst.)
  - observation which may clarify location of, in oriented cephalometric radiographs, 157 (Abst.)

### C

- Canines, impacted, treatment of, 891
- Caries; Stone Age man's dentition, 380
- Case assessment, intraoral factors affecting, 341

- Central Section of American Association of Orthodontists, 724, 885
- Cephalometric appraisal of results of cervical gear therapy, 60  
     norms, criteria for appraising, 421  
     radiographs, oriented, observation which may clarify location of Bolton Point in, 157 (Abst.)  
     radiography, clinical, critical review of, 1  
     roentgenograms, lateral, effect of high kilovoltage on hard and soft tissue definition in, 837  
     standards for children 4 to 8 years of age, 51  
     x-rays in Greek families, familiar resemblances in craniofacial osteology as revealed by, 233 (Abst.)
- Cephalometrics, critical review of, 567
- Cervical gear therapy, cephalometric appraisal of results of, 60
- Children 4 to 8 years of age, cephalometric standards for, 51  
     9 years of age, widths of dental arches at permanent first molars in, 134  
     orthodontic, report of, covering period of twenty-five years, 83  
     with orthodontic disturbances, masticatory function of, 756
- Children's Bureau; orthodontics from public health viewpoint, 29  
     U. S. Department of Health, Education, and Welfare, 76
- Chin, adaptive, 948 (Abst.)
- Chrome alloy, use of, in edgewise technique, 450
- Class II, Division 1 malocclusion, use of edgewise mechanism in treatment of, 179  
     Division 2 malocclusion, diagnosis and interception of, 325  
         treatment of, involving mesiodistal reduction of mandibular anterior teeth, 44  
     malocclusion in mixed dentition, treatment of, with use of removable appliances, 359  
     therapy; cephalometric appraisal of results of cervical gear therapy, 60
- III malocclusion, differences between facial skeletal pattern of, and normal occlusion, 148 (Abst.)
- Cleft lip and cleft palate, unilateral, patients, analysis of orthodontic expansion in, 686  
     and palate, 493
- Palate Rehabilitation, American Association for, 322
- Clinical cephalometric radiography, critical review of, 1
- Cohen, Rose, Memorial Lecture, 161
- Condyle, radiographic and clinical study of positions of, in individuals exhibiting malfunction of temporomandibular joints, 231 (Abst.)
- Condyles, mandibular, of mice, changes in, following use of orthodontic bite plates, 775
- Correspondence, 388, 549, 551
- Craniofacial osteology, familiar resemblances in, as revealed by cephalometric x-rays in Greek families, 233 (Abst.)
- D
- Dental arches, widths of, at permanent first molars in children 9 years of age, 134  
     editing, problems in, 707  
     function, tongue and, 927  
     public health programs; orthodontics from public health viewpoint, 27
- Dentition, development of facial skeleton and of, growth and function of muscles of mastication in relation to, 429  
     forces about, temporary report on, 234 (Abst.)  
     mixed, rational approach to treatment of, 610  
         treatment of Class II malocclusion in, with use of removable appliances, 359  
     order of eruption of permanent human, 477 (Abst.)  
     Stone Age man's, 298, 373, 462, 517
- Dentofacial development, general growth acceleration and retardation in relation to, 243
- Denver Summer Meeting for Advancement of Orthodontic Practice and Research, 563, 726
- Development, dentofacial, general growth acceleration and retardation in relation to, 243  
     of facial skeleton and of dentition, growth and function of muscles of mastication in relation to, 429  
     of ideal occlusion of gum pads and teeth, 197  
     osseous, from birth to 14 years, method of evaluating, 391 (Abst.)
- Developmental disturbances and malocclusion of teeth produced by androgen treatment in monkey (*Macaca mulatta*), 37
- Dewey, Martin, Award Committee presents award to Paul G. Spencer, 955
- Diagnosis and interception of Class II, Division 2 malocclusion, 325  
     orthodontic; gonial angle, 129  
     rational approaches in, 109  
     recent research for, 591
- Distocclusion case, typical, treatment of, 350  
     employing open-tube appliance, 163  
     mandibular morphology of, 232 (Abst.)
- Doctor draft registrants may be reassigned to Army Ready Reserve Units, 240
- Dwarfism; general growth acceleration and retardation in relation to dentofacial development, 253  
     pituitary, and growth hormone factor; factors in occlusion, 676

- Dysplasia, congenital ectodermal, facial growth in; factors in occlusion, 672  
 ectodermal, facial growth in case of complete anodontia with, fourteen-year report of, 237 (Abst.)

## E

- Edgewise mechanism, use of, in treatment of Class II, Division 1 malocclusion, 179  
 technique, use of chrome alloy in, 450  
 Editing, dental, problems in, 707  
 Education Committee of American Association of Orthodontists, report of, 1954, 944  
 Electromyographic data, study to develop standardized method by which, may be recorded for serial evaluation, 230 (Abst.)  
 Electromyography; recent research for diagnosis, 592  
 Embryologic evidence for non-existence of premaxilla in man, 235 (Abst.)  
 Eruption, intra-alveolar; intraoral factors affecting case assessment, 343  
 of permanent human dentition, order of, 477 (Abst.)  
 teeth in British children in 1947-8, time of, 479 (Abst.)  
 Etiology of malocclusion; Stone Age man's dentition, 462  
 European Orthodontic Society, 958  
 Evolutionary aspects of gonial angle changes; gonial angle, 120  
 Extraction of teeth adjacent to maxillary sinus in dog, change of volume after, 237 (Abst.)  
 for orthodontic purposes; Stone Age man's dentition, 469  
 serial, in orthodontics: indications, objectives, and treatment procedures, 906  
 some viewpoints on, 507

## F

- Face, evolutionary changes in bony architecture of; Stone Age man's dentition, 382  
 Facial growth in case of complete anodontia with ectodermal dysplasia, fourteen-year report of, 237 (Abst.)  
 in congenital ectodermal dysplasia; factors in occlusion, 673  
 influence of increments, time and direction of, on orthodontic therapy, 69 (Abst.)  
 study, State University of Iowa; cephalometric standards for children 4 to 8 years of age, 51  
 skeletal pattern, 600  
 skeleton, growth and function of muscles of mastication in relation to development of, and of dentition, 429

## Facial—Cont'd

- morphologic studies of; cleft lip and palate, 493  
 Fiftieth annual meeting of American Association of Orthodontists, 536  
 Florida Orthodontic Society, 483  
 Fractures, subcondylar, of mandible: research and treatment, 729  
 Frontal laminagraphy, application of, to study of nasopharyngeal development in normal and cleft palate children, 148 (Abst.)  
 Frontonasal suture, growth of rabbit snout after extirpation of, 236 (Abst.)  
 of rabbit, growth at: gross and serial roentgenographic study by means of metallic implants, 236 (Abst.)  
 Function, dental, tongue and, 927  
 growth and, of muscles of mastication in relation to development of facial skeleton and of dentition, 429  
 masticatory, of children with orthodontic disturbances, 756

## G

- Gigantism; general growth acceleration and retardation in relation to dentofacial development, 254  
 Golden Anniversary Luncheon, 536, 722  
 Gonial angle, 120  
 Gorman, Jacob A.; Southern Society honors pioneer orthodontist, 484  
 Great Lakes Society of Orthodontists, 72, 806  
 president's address, 487  
 Growth acceleration and retardation, general, in relation to dentofacial development, 243  
 and function of muscles of mastication in relation to development of facial skeleton and of dentition, 429  
 at frontonasal suture of rabbit: gross and serial roentgenographic study by means of metallic implants, 236 (Abst.)  
 comparative, Morquio's syndrome and; factors in occlusion, 679  
 facial, in congenital ectodermal dysplasia; factors in occlusion, 672  
 influence of increments, time, and direction of, on orthodontic therapy, 69 (Abst.)  
 hormone factor, pituitary dwarfism and; factors in occlusion, 676  
 of rabbit snout after extirpation of frontonasal suture, 236 (Abst.)  
 pattern of pig mandible: roentgenographic study using metallic implants, 235 (Abst.)  
 recent research for diagnosis, 605  
 Gum pads and teeth, development of ideal occlusion of, 196

## H

- High kilovoltage, effect of, on hard and soft tissue definition in lateral cephalometric roentgenograms, 837
- Hinman, Thomas P., Mid-Winter Clinic, 76
- Horizontal plane, polygon portrayal of coronal and basal arch dimensions in, 811
- Hormones, sex; developmental disturbances and malocclusion of teeth produced by androgen treatment in monkey (*Macaca mulatta*) 37
- Human body build, variations in; somatometric and x-ray cephalometric investigation on Scandinavian adults, 799 (Abst.)
- permanent teeth, root resorption in, 619
- premaxillary bone, topology of, 638 (Abst.)
- Hunt, Vernon, dies in California, 888

## I

- Incisors, some observations upon environment of, 150 (Abst.)
- In memoriam, Frederick C. Allen, 147
- Dwight Anderson, 146
- Maurice C. Berman, 64
- Louis Braun, 314
- Frank R. Bristol, 797
- Charles R. Brooks, 476
- I. William Bull, 637
- James A. Burrill, 65
- Edward J. Copping, 146
- David Willard Flint, 796
- Vernon Leslie Hunt, 947
- Howard S. McElnea, 314
- Clare Kenneth Madden, 63
- William Michael Pugh, 713
- Joseph P. Serafino, 67
- Fred E. Sims, 873
- William J. Speers, 547
- Henry Spenadel, 67
- Charles Rush Straub, 797
- Thomas Ralph Sweet, 313
- Interception, diagnosis and, of Class II, Division 2 malocclusion, 325
- Intermaxillary hooks; use of chrome alloy in edgewise technique, 459
- International Luncheon; fiftieth annual meeting of American Association of Orthodontists, 544

## J

- Jackson, Andrew F., and Swinehart, Earl W., luncheon in honor of, 951
- Jarrett, William M.; orthodontist serves on board of health, 959
- Johnson Alumni Club, 959

## K

- Ketcham, Albert H., memorial award, 1954, presentation of, by Raymond L. Webster, President of American Board of Orthodontics, 783
- response by Charles R. Baker to presentation of, 787
- Award; Dr. Charles R. Baker receives orthodontics' highest award, 646
- Kilovoltage, high, effect of, on hard and soft tissue definition in lateral cephalometric roentgenograms, 837

## L

- Lamina dura, changes in, during tooth movement, 364
- Laminagraphy, frontal, application of, to study of nasopharyngeal development in normal and cleft palate children, 148 (Abst.)
- Lingual wire, used in maxillary retraction; treatment of typical distocclusion case, 350
- Lip and palate, cleft, 493
- cleft, and cleft palate, unilateral, patients, analysis of orthodontic expansion in, 686
- surgery, effects of, on clefts of palate; analysis of orthodontic expansion in unilateral cleft lip and cleft palate patients, 690

## M

- Macrognothia; criteria for appraising cephalometric norms, 421
- Malfunction of temporomandibular joints, radiographic and clinical study of positions of condyle in individuals exhibiting, 231 (Abst.)
- Malocclusion, age and, survey of 143 periodontal cases in terms of, 234 (Abst.)
- Class II, Division 1, use of edgewise mechanism in treatment of, 179
- 2, diagnosis and interception of, 325
- treatment of, involving mesiodistal reduction of mandibular anterior teeth, 44
- in mixed dentition, treatment of, with use of removable appliances, 359
- III, and normal occlusion, differences between facial skeletal pattern of, 148 (Abst.)
- etiology of; Stone Age man's dentition, 462
- of teeth, developmental disturbances and, produced by androgen treatment in monkey (*Macaca mulatta*), 37
- relation of speech defects and, 149 (Abst.)
- treatment of; some viewpoints on extraction, 507

- Mandible, subcondylar fractures of: research and treatment, 729
- Mandibular anterior teeth, treatment of Class II, Division 2 malocclusion involving mesiodistal reduction of, 44
- condyles of mice, changes in, following use of orthodontic bite plates, 775
- morphology of distocclusion, 232 (Abst.)
- prognathism, rationale of, 281
- Mastication, growth and function of muscles of, in relation to development of facial skeleton and of dentition, 429
- Masticatory function of children with orthodontic disturbances, 756
- Mathematical grid coordinate method of locating Bolton point, 232, (Abst.)
- Maturity, physiological, indices of: derivation and interrelationships, 553 (Abst.)
- Maxillary bite plane therapy in orthodontics, 850
- first permanent molar, normal position of, 259
- protrusion, types of; some viewpoints on extraction, 510
- sinus, change in volume after extraction of teeth adjacent to, in dog, 237 (Abst.)
- teeth, retraction of; treatment of typical distocclusion case, 350
- Mechanism, edgewise, use of, in treatment of Class II, Division 1 malocclusion, 179
- Medical Library Association, 405
- Metallic implants, growth at frontonasal suture of rabbit: gross and serial roentgenographic study by means of, 236 (Abst.)
- pattern of pig mandible: roentgenographic study using, 235 (Abst.)
- Method of evaluating osseous development from birth to 14 years, 391 (Abst.)
- mathematical grid coordinate, of locating Bolton point, 232 (Abst.)
- standardized, by which electromyographic data may be recorded for serial evaluation, study to develop, 230 (Abst.)
- Methods, principles and, of treatment, 832
- Middle Atlantic Society of Orthodontists, 72, 646, 886, 953
- luncheon in honor of Andrew F. Jackson and Earl W. Swinehart, 951
- Mixed dentition, rational approach to treatment of, 610
- treatment of Class II malocclusion in, with use of removable appliances, 359
- Molar, maxillary first permanent, normal position of, 259
- third, agenesis of, in man, 698
- Molars, permanent first, widths of dental arches at, in children 9 years of age, 134
- Morphologic studies of facial skeleton; cleft lip and palate, 493
- Morphology, mandibular, of distocclusion, 232 (Abst.)
- Morquio's syndrome and comparative growth; factors in occlusion, 679
- Myodynagraph, photoelectric, for directing recording of oral muscle forces, 157 (Abst.)
- N
- Nasopharyngeal development in normal and cleft palate children, application of frontal laminagraphy to, 148 (Abst.)
- Neuromuscular pattern; recent research for diagnosis, 592
- News and notes, 71, 159, 239, 318, 405, 482, 558, 640, 721, 802, 880, 950
- Normal position of maxillary first permanent molar, 259
- standards, contribution of, to diagnosis; rational approaches in orthodontic diagnosis, 110
- Northeastern Society of Orthodontists, 73, 160, 239, 564, 724, 807, 887, 953
- Northwestern University, 78
- Dental School, 405, 485
- Notes of interest, 78, 161, 241, 323, 405, 485, 565, 647, 727, 809, 889, 959
- O
- Occlusion, anatomically correct; Stone Age man's dentition, 299, 462
- factors in, 671
- intraoral factors affecting case assessment, 347
- of gum pads and teeth, development of ideal, 196
- of permanent teeth of young adult; development of ideal occlusion of gum pads and teeth, 211
- Officers of orthodontic societies, 79, 162, 242, 324, 406, 486, 566, 648, 728, 810, 890, 960
- Open-tube appliance, treatment of typical distocclusion case employing, 163
- Oral muscle forces, photoelectric myodynagraph for directing recording of, 157 (Abst.)
- Orofacial structures, analysis of, with special reference to muscle behaviour and dental alignment, 715 (Abst.)
- Orthodontic bite plates, changes in mandibular condyles of mice following use of, 775
- children, report of, covering period of twenty-five years, 83

- Orthodontic—Cont'd  
 diagnosis; gonial angle, 129  
   rational approaches to, 109  
 disturbances, masticatory function of children with, 756  
 expansion in unilateral cleft lip and cleft palate patients, analysis of, 686  
 societies of world and principal officers, list of, 80  
 therapy, influence of increments, time, and direction of facial growth on, 69 (Abst.)  
 tooth movement; changes in lamina dura during tooth movement, 364  
 trends—past and present, 272  
 wire, stainless steel, effect of section size and shape on mechanical properties of, 233 (Abst.)
- Orthodontics, effects of maxillary bite plane therapy in, 850  
 from public health viewpoint, 27  
 in public health practice, 654
